Subject: Re: Microsoft settlement

What a waste of time and taxpayer money. Once again a wealthy company has bought justice.

America may have the best judicial system in the world, but it does have a serious flaw.

If you have money you can play the game. I just read that Exxon had their Alaska settlement reduced.

As the saying goes, MONEY TALKS.

Just what did it cost the Government to sue Microsoft? (Does anyone know?)

Why not have Microsoft reimburse the Government for all the legal fees?

I guess that would be asking too much.
